

We cater for those working in specialist rooms in addition to comprehensive imaging sites.

Common specialities that are accessing Medicare rebates for imaging include:

- Obstetric and Gynaecology
- Cardiology
- Urology
- Dental
- Chiropractic
- Vascular
- Breast and endocrine surgeons
- Skin specialists
- Plastics
- Orthopaedics
- Fertility clinics
- Gastroenterology
- Rural GP clinics

"Choice Accreditation Services were completely amazing in the way they helped us through the Ultrasound Accreditation process. Nicole's friendly and professional guidance turned an extremely stressful and daunting undertaking into a painless and stress-free task. After minimal effort on our part we can now relax for the next four years. Thank you so much Choice Accreditation Services for doing all the hard work; we will be back in touch in 2019!". - Fran, Practice Manager, South West Gynaecology, Bunbury WA.

"The help that Nic and her team at Choice gave us cannot be put into words. They were incredible from the moment we first met with them. Would recommend them to everyone - thank you Choice Accreditation." - Brid, Joondalup Health Campus, Ramsay Health, Perth WA

Helping you keep your patients and practices safe whilst getting what you are entitled to from Medicare.

MEDICAL IMAGING ACCREDITATION AND CONSULTANCY

Providing accreditation assistance to medical imaging and specialist practices Australia wide.

www.choiceaccreditationservices.com.au

Choice Accreditation Services has evolved due to the emerging demand for assistance in obtaining mandatory accreditation for the Medical Imaging community.

We are proud to offer a professional and individual service to help you through the accreditation maze with minimal disruption to your practice and staff.

Choice Accreditation Services are happy to cater for the single site/single modality practice right through to the large corporate company. We assist a wide range of specialists and anyone else that needs accreditation to receive Medicare rebates. We pride ourselves on keeping the process simple, quick and as painless as possible for you.

We are located in Perth but all of our services are offered remotely, so site visits and lengthy meetings are unnecessary.

ACCREDITATION SERVICES WE OFFER

- Assistance in obtaining your DIAS accreditation (Diagnostic Imaging Accreditation Scheme)
- Entry or Full Suite Level
- Re-accreditations
- Practice start-ups or expansions
- Provider numbers
- Radiation Safety Plans
- State registrations and compliance
- Accreditor discounts available to our clients
- Infection control advice in relation to ultrasound transducer disinfection
- Assistance with Medicare item number selection

ADDITIONAL SERVICES

Medicare Billing

We can provide a fast, accurate and secure billings service for clients who are traditionally not set up to deal with Medicare. This often includes Dental, Orthodontic or Chiropractic practices that prefer to outsource this service. As part of our service we can conduct mini-audits to ensure compliance with Medicare documentation rules in relation to referrals and reports.

Tele-radiology Services

We also provide a tele-radiology service for practices that do not require a Radiologist to be onsite. This service is fully compliant with the RANZCR standards for tele-reporting and meets all the supervision requirements.
